Sweden's King Does Not Like The Move Of Norway In Breaking The Alliance.

NORWEGIANS TAKE OATHS TODAY.

Oby Decees Of Government--The Flag Of Independen Norway Is Raised On All The Forts And Shipping.

[SPECIAL BY SCRIPPS-M'RAE.]
Christiania, June 9.—By the direction of the council of state at ten o'clock this morning the national emblem was raised on every flagstaff and the colors of the new Norway were made on every ship. The flag was then saluted by twenty-one guns. The principal ceremony occupied Akershus fort overlooking Christiania bay, where the decree of the Storting, notifying the army of the dissolution of the union, was read to the garrison and the oath of allegiance administered.

Change the Flag.
The council also resolved to eliminate the emblems of the union from the war flag of Norway. The new Norwegian flag was hoisted throughout the country at 10 o'clock a. m. Friday. The council of defense has ordered the flags over all the fortresses and warships of Norway to be saluted with twenty-one guns. The substitution of the new for the old flag at Christiania will take place at Akershus fort in the presence of the garrison of the capital.

The prayer book of the Norwegian church has been modified in accordance with the change in the political situation, the prayers for the royal family being omitted.

The ecclesiastical authorities have issued a notice calling on the clergy at the first celebration of divine service after the deposition of the king to offer an appropriate prayer for the fatherland.

Hail the Prince.
Stockholm, June 9.—The Crown Prince arrived this morning from Berlin. He was received with great enthusiasm by the people. The Swedish parliament is called for June 26th. There is uneasiness on every side and fear is expressed, openly in some quarters. Secretly in others, that the situation may develop into a quarrel. Much will depend on the attitude taken by Crown Prince Gustave.

IS MONEY BEING SPENT TO DEFEAT THE LEGISLATION?

This Is The Theory That Goes Forth From Madison...A Spirited Debate Held.

[SPECIAL TO THE GAZETTE.]
Madison, Wis.—In these last strenuous days of the legislative session there are circulated frequent violent and unconfirmable rumors to the effect that money is being freely used to defeat certain contested bills. There has been perhaps less of this kind of talk during the present session than formerly but there appears to be ground for a well-developed suspicion at least that some interests have been willing to spend large sums of money to push or defeat measures in which they were interested. There has been no rumors of corruption or bribery of members that would warrant reflecting in public print, but that money is available is known generally to newspaper men, for to them money has been directly and indirectly offered for their influence for or against various controverted propositions. Such a measure was the bill to empower the state board of medical examiners to revoke the licenses of objectionable physicians. Another is the bill being pressed by Insurance Commissioner Host to require all old line insurance companies to make distributions of their surplus funds among the policyholders not less frequently than once in five years. Newspapers have been approached with offers to "pay you well for your time" if they will assist by their writing the interest making the offer. The agent assumes a friendliness and an

honest manner that is clever. He does not propose to buy the writings of the reporter, but suggests that the correspondent, being well acquainted personally with the members, might do good work "in this just cause" by speaking to them, and any expense or loss of time in such work is offered full and liberal remuneration. Such offers involve figures of from \$25 or less to \$300.

Spirited Debates.

Last night a spirited hearing was held before the senate committee on finance, banks and insurance on the bill to require frequent divisions of surplus by old line mutual insurance companies. The committee was able to take no action in the way of favorable or adverse recommendation, the members being equally divided. With Senator Rummel of Milwaukee absent. It is understood that he favors the bill, but he could not be waited for because the senate rule required the bills to be reported not later than last night. Commissioner Host appeared at the hearing and delivered a long address, roundly scolding the old line mutual companies for what he plainly termed looting the policyholders by their ingenious scheme of deferred dividend policies. The advancement of the Stout bill to keep saloons away from school houses, the passage of the anti-lobby bill and the killing of the telephone "physical connection" bill were feared

MYSTERY WILL BE SOLVED YET

Illinois Bank Vault Is Blown Up But No Money Is Taken By Robbers.

BOOKKEEPER'S ARM WAS BROKEN

Man Claims He Was Standing On Opposite Side Of Street When A Flying Brick Hit Him Below The Elbow.

Paris, Ill., June 9.—The Edgar County National bank building and vault in this city was almost completely wrecked by dynamite Thursday morning and the police declare the affair is shrouded in deep mystery. No motive for the deed has been discovered and as no money was taken the authorities doubt that the vault was blown for the purpose of robbery.

Whoever did the job did not know how to measure the power of the explosive or intended to make a complete wreck of the place. The banking business, while the building was being remodeled, has been conducted in another place, but the old vault and safes were still used. The vault seemed to have been blown from inside, as its walls were thrown outward and the structure obliterated. The partition walls of adjoining buildings went down and window panes for blocks were broken.

The stocks of the Bradshaw jewelry store and Wetzel's shoe store were damaged several thousand dollars by the falling partition walls. The contents of the bank vault were strewn about the street and buried in the debris of the building.

Money Intact in Safes.
The bank funds are said to have been in two safes standing near the vault, and these, while overturned, held the contents securely. The officers of the bank said no money was missing and that there was about \$50,000 in the safes. The bank books and about 200 safety deposit boxes were buried in the wreckage.

So far, only one man has been found who was in sight when the explosion occurred. He is Daniel Wingard and he says that he was on the northeast corner of the public square. The bank is on that side of the square.

Police Claim to Have Clue.
The police and the sheriff's force began work at once, and it is said a private detective also is working on the case. The police say they have a clue.

Vice President Terrance Clark, who is in charge of the investigation, recalls that a few months ago a stick of dynamite was found under his porch, the source of which was never discovered, and there are some features of the bank explosion which indicate that it was done through malice and not with the motive of robbery.

The police were notified that a man had been seen going in the direction of the gravel bank south of the city and the patrol wagon and several officers were sent in pursuit of the stranger, who was said to be armed with a Winchester. He was not found. The police, however, are not inclined to connect him with the explosion.

Later in the day it was reported that the discovery was made that a quantity of dynamite was missing from the Gormley hardware store. At the store the statement was denied.

DRUMMERS ARE IN CONVENTION

ANNUAL MEETING OF WISCONSIN COMMERCIAL TRAVELERS.

HOLDING FORTH AT OSHKOSH

Janesville is Well Represented—Local Men Prominent in State Division.

[SPECIAL TO THE GAZETTE.] Oshkosh, Wis., June 9.—The eighth annual convention of the United Commercial Travelers of Wisconsin opened here today and will continue two days. It is the largest meeting of the organization ever held in the state. Fully one thousand five hundred traveling salesmen are expected to be in the city by tonight and an equal number of women, wives and daughters.

Janesville is well represented at the gathering, council number 108 of this city is one of the prominent ones in the state and among the officers of the Wisconsin division are local men. F. Van de Water is grand secretary and C. B. Evans is chaplain.

Is Young Order.
Though one of the young orders of the countries, the United Commercial Travelers is so broad, so practical, so philosophic in principle and so popular among the traveling salesmen of not only Wisconsin, but in every state that it is regarded as one of the most representative and comprehensive societies of its nature. The order is less than two decades old and it owes its existence primarily to the brains and energy of three men: Levi C. Pease, a Massachusetts man; Charles B. Flagg, whom Waukegan, Ill., claims, and John C. Fenimore, who was born and reared in Indiana. The order as at present constituted represents an evolution. The plan of a secret society among commercial travelers without benefits had been tried with indifferent success. The U. C. T. idea was something along the middle ground between the strictly fraternal orders and the strictly beneficial associations. The idea was so new that it was necessary to blaze a trail all the way. The principals of the order, "Unity and Stability, Charity and Fidelity, Temperance and Purity," bespoke for those advocating them the respectful consideration of all traveling men and the hearty cooperation of the broad-minded, thinking men of the profession. The first council, No. 1, Columbus, was instituted in March 1883. No. 2, Cincinnati, followed shortly after. In Wisconsin, No. 54 at Milwaukee was first, with a long period between came No. 94 at La Crosse, then No. 97, Eau Claire, then No. 108, Janesville, No. 126, Madison, and No. 128 Green Bay. Since 1903 the order has grown rapidly and now numbers about 30,000.

Exceptional Program.
The program that has been arranged for the entertainment of the persons who attend the convention is believed to fill all requirements. A banquet and ball will be the crowning feature. This will be held this evening at Armony B. and will be truly elaborate. Music, menu and decorations will be in harmony with the magnitude of the occasion. This afternoon a parade is being held. All councils of the state were represented and as many of them brought bands. Among the cities that are represented are: Milwaukee, Sheboygan, Eau Claire, La Crosse, Manitowish, Janesville, Madison, Fond du Lac, Watertown, Oshkosh, Appleton, Green Bay, Marinette, Marshfield, Ashland, Wausau and Sparta. The convention proper opened this morning at 8:30 o'clock with a meeting of the grand council. Tomorrow will be given chiefly to sight-seeing. The ladies will be given rides about town in automobiles, all the residents of the city having such vehicles, having agreed to place them at the command of the traveling men on that day.

State Officers.
The state officers of the Wisconsin division are: Grand counselor, J. H. A. Lacher, Wausau; junior counselor, M. Maynard, Oshkosh; past counselor, E. H. Olds, Appleton; grand secretary, F. Van de Water, Janesville; grand treasurer, M. L. Dunn, Madison; grand conductor, C. H. Chamberlain, La Crosse; grand page, M. J. Sullivan, Milwaukee; sentinel, W. T. Elliott, Madison; chaplain, C. B. Evans, Janesville; grand executive committee, Charles Dean, Eau Claire; A. Campbell, Marshfield; W. A. Draper, Green Bay; C. A. Calkins, Tomah.

WARM WEATHER HELPS.

Get Rid of Your Catarrh by Using Hyomei Now.

Everyone who has catarrh should take advantage of the warm weather to get rid of this annoying and distressing disease. The right treatment faithfully followed in May or June, will benefit much more quickly than in the winter and early spring.

Do not try to cure catarrh of the head and throat by taking drugs into the stomach. It cannot be cured in that manner. The only way in which this too common disease can be cured is through a direct application of Hyomei that will kill the germs of catarrh and prevent their growth.

The first day's use of Hyomei will show a decided improvement, and in a short time, especially if used at this season of the year, there will be no further trouble from catarrh.

You take no risk in buying Hyomei. The complete outfit costs but one dollar, and if after using you can say that the treatment has not helped you, People's Drug Co. will return your money.

The guests were received from 2:30 to 4:30 p. m. and hundreds took advantage of the opportunity to tender their congratulations and wish them a happy and prosperous future. O. D. Asplund and wife, Chicago, and Mrs. Finney Williams, Janesville, were out-of-town guests.

Northwestern Too Strong.
The college ball team suffered its first defeat of the season Wednesday afternoon at the hands of the Northwestern university nine of Waterloo. The home team did not put up as good a game as usual and their errors were costly while the visitors played a stronger game than any nine that the college team has met this year, the pitching department of Northwestern being very strong. Clarke and Place did the box work for the college in fine shape, but their support was not up to the standard of previous games. The contest took place at Crescent Park and the college boys could not do as good work there as on their own field. It was a good game, however, as the score of four to one shows.

OXFORD CREDITS STATE UNIVERSITY

Convocation Votes to Admit Wisconsin Students to Advanced Standing.

[SPECIAL TO THE GAZETTE.] Madison, Wis., June 9.—The authorities of the University of Wisconsin have just been informed that at the last convocation of Oxford University three decrees were unanimously adopted granting to all junior and senior students of the University of Wisconsin full credit with advanced standing at the University of Oxford.

The only other American university enjoying the same privilege is Harvard, action to a similar effect having been taken in regard to that institution. This decree will do away with all formal procedure on the part of University of Wisconsin students who desire to enter Oxford, for it is usually necessary to secure separate action by the convocation on each separate application made by foreign students; and any student of the state university who satisfies the conditions described in these decrees will be entitled to the privileges of either junior or senior standing according to his rank at Wisconsin. The University of Wisconsin is now represented at Oxford by Mr. Richard F. Seelye, '02 of Milwaukee who won the Rhodes Scholarship allotted to the state of Wisconsin last year and who took up his residence in the English university last fall. The Oxford University Gazette, the official publication of the university, in its last issue contains the following statement:
"In a convocation held Tuesday, May 16, the following business was submitted to the house:
"Decree 7.—That any member of the University of Wisconsin who shall have been graded either 'B' or 'A' in Greek 1 and 2 at that university, shall be deemed to have shown a sufficient knowledge of Greek as required by provisions of the statute on students from foreign universities. (Carried—nearly unanimous.)
"Decree 8.—That any member of the University of Wisconsin who shall have pursued at that University a course of study extending over two years at the least, and shall have been graded 'B' or higher in at least six semester hours, shall be eligible for admission to the status and privileges of a Junior Foreign Student, provided that he said courses are courses which could have counted toward the Degree of Bachelor of Arts at that University. (Carried—nearly unanimous.)
"Decree 9.—That any member of the University of Wisconsin who shall have pursued at that University a course of study extending over three years at the least, and (a) shall have obtained the Degree of Bachelor of Arts with honors in his major study; or (b) shall have been graded not lower than C in ninety semester hours in at least six of which his grading shall have been either 'B' or 'A' shall be eligible for admission to the status and privileges of a Senior Foreign Student. (Carried—nearly unanimous.)"

A TALK ON FASHIONS.

Modistes are excelling all their former efforts and woman is so gowning today that it would require but a slight stretch of the imagination to fancy that one is looking upon an embodiment of a beauty painted by an old master, for indeed nothing of beauty of other Eras escapes the arbiters of fashion of this period.

The fashionable skirt is svelte at the hips and full at the hem. The deep point that appeared years ago at the front of evening bodices is seen this season on cloth bodices as well, but this point, no matter of what material, must be straight and stiff to fit closely; against the front breadth of the skirt, and while not so much is said about the straight front as formerly, it is still with us in the best corset models such as the C. B. la Spire, but in spite of the beauty doctors' prophecies of red noses and flushed faces, the corset laces are drawn much tighter.

Short sleeves appear in gowns of all descriptions. Even tailor-mades have sleeves reaching not more than half way to the wrists and the frock for rainy days or traveling wear has lost much of its severity and has many of the more picturesque features formerly reserved for the more dressy gown.

Priestley cravatized frocks for morning wear are at their most fashionable. Of seamless back and one dart front, a fashion to which, like wine, age adds flavor. Waistcoats are seen plentifully with such coats.

Cravette on the back of the stunning tweed of which the trig toilet of darker shade in my drawing is composed, made it possible for the charming wearer, a popular and athletic member of New York's smart set, to take her daily pedestrian trip, regardless of wind and weather, secure in the knowledge that her gown could be neither wet nor spotted.

And now, a word about that beautiful and perfect dress fabric—Silk! Never has it possessed one tithe of its present popularity, and it is a fashion come to stay! No longer the fabric of the rich, the wearing of Abis silk should be a matter of congratulation to the woman of today, for fashion can prescribe no fabric that is so beautiful and at the same time so generously becoming.

Abis Messaline taffeta, which has been so great a factor in the present silk vogue, and which is shown in my illustration, is a lovely silk of soft and shimmering texture and makes a most luxurious frock, and best of all, carries its guarantee on the selvage, so it can be chosen for a gown that can be made to do duty for a variety of affairs being both durable and suitable.

A JOKE FOR SMOKERS

Try It on Your Bald-Headed Friends and Have a Laugh.

If you smoke a cigar that burns with good solid ashes that will not fall off until the cigar is half smoked up, such a cigar as the Wadsworth Bros. Cigars, sold by the Smith Drug Co., you can have a good joke on some bald-headed friend.

When there is an inch or two of ash on the end of the cigar just let it fall on that bald head and see how high it can jump. The ashes are not hot enough to burn, but they are warm enough to be felt.

The Chicors are a real ten-cent Havana filled cigar that the Smith Drug Co. sell for a nickel, and is the only 5c cigar where the ashes are firm and solid like those of expensive grades. You will enjoy a Chicor anyway, so try one and see how good it is.

Men's Literary Union of this city,
have made arrangements for a course
of lectures for the coming season, the
speakers to be from the best literary
talent of the country. When the pro-
gramme is perfected we will be glad
to give it to the public, and feel sure
that our citizens will sustain liberal-
ly such enterprise on the part of our
young men.

niversary session of the Albany Acad-
emy will be held Wednesday, June 28,

day evening, June 28.

tend.

By Order of Committee.
H. S. POMEROY, Chairman.
Albion, Wis., June 8.

The following resolutions, which
speak for themselves, were passed by
the Executive Board of the Rock
County Agricultural Society, May 26,
1865.
Resolved, That the next sale and ex-
change day of Rock County be held

on the Fair Grounds, Friday, June
30th, 1865.

Resolved, That we extend a press-
ing invitation to the ladies to attend
and take part in our sale days.
Resolved, That the Wisconsin State
Agricultural Society can have the use
of our grounds for holding their next
Annual Fair, for the sum of \$400, and
this offer to be held open to the first
Saturday of July, 1865.

H. P. FALLS, Pres't.
J. Fowle, Sec'y.
Suggestion.—Inasmuch as the gen-
tlemen feel their inability (which is
expressed in the pressing invitation)
to make interesting the sale and ex-
change days without the presence and
cooperation of the ladies, I would sug-
gest to them that if they have any
enterprise for which they wish to
raise funds, that they manufacture by
their handwork various articles and
offer them for sale on that day, or
any other device they may think
proper for the occasion. The floral
Hall would be a suitable place for
their department. J. F.

Gov. Watt of Alabama has been re-

of the lumbermen.

Best Medicine He Ever
Used for Stomach,
Liver and Kidneys.

Read this letter to us from Mr. Alex. J.
Walker, of Springfield, Ill., which we received
on September 12, 1894: "Four remedies, Seven
Barks, is the best medicine I have ever used
for Stomach, Liver and Kidneys. It certainly
will cure indigestion, constipation, together
with all their allied diseases. As a tonic for
run-down men and women, there is no better
medicine. I will ever remain a friend to
Seven Barks."

When a man knows his stomach is
"out of order," he looks about to find
a cure. That's what Mr. Walker did,
as his letter gives evidence of having
tried other remedies, because he re-
fers to Seven Barks as being the best.
We sell Seven Barks, because people
tell us it's the best tonic for a weak
Stomach they've ever used. These
people could all come here and get
their money back if Seven Barks didn't
cure. But how long do you suppose
our customers would trade here if we
sold them a worthless remedy? Seven
Barks is purely vegetable, and pleasant
to take. A full-size bottle costs 50
cents. No cure, no pay. Try it.

go, and the rights of men to conduct
 their own business, is the issue.

That's a fine doctrine to eliminate
 from a school room where teachers
 are employed who are supposed to
 be blessed with a stock of common
 sense, and some regard for common
 justice.

Talk about yellow journalism, if
 that sort of teaching is permitted,
 Chicago will be able to furnish Hearst
 with a staff of "yellow writers"
 strong enough to supply every town
 in the country with a yellow sheet,
 ten years from now.

It is bad enough to have the col-
 leges of the land tinctured with so-
 cialistic sentiment, but they only
 reach a limited class.

The common schools belong to the
 masses. This great academy furnishes
 the only opportunity which 95 per-
 cent of the children enjoy for school
 room education.

The army of teachers who preside
 in these school rooms, is nearer to
 child life, in many respects, than the
 home, and in employing recruits for
 this great army, more should be re-
 quired than simply the ability to
 pass a mental examination.

The school teachers of Chicago
 have so far forgotten their mission,
 as to swear allegiance to a labor
 organization which is just now en-
 gaged in a lawless and indefensible
 strike. The influence of this sort
 of sympathy can not help but be
 felt, and the seeds of sedition and
 rebellion will take ready root.

The School Board of Chicago is re-
 sponsible for these conditions, and
 the public will hold the board ac-
 countable. There should be a few
 questions added to the examination
 list. Among them the following:

Are you an American citizen?

Do you believe in the supremacy
 of law and order?

Will you teach by example and pre-
 cept the duties of American citizen-
 ship?

Will you pledge supreme loyalty
 to the home and the child?

The list might be extended to in-
 clude a lot of questions having to do
 with common sense, and ordinary
 intelligence, which belong to the
 realm of unwritten law.

The general public is interested
 to know what particular use the
 teachers of Chicago, or any other
 city, has for a labor union. The
 eight-hour-day is already establish-
 ed. There should be a limit to this
 kind of organization.

For nearly a century, or since 1814,
 Sweden and Norway have enjoyed
 the semblance of union, while more
 or less friction has prevailed. The
 division caused by Norway's declara-
 tion of independence, will result, in
 satisfaction to both nations. They
 are races of sturdy people noted for
 thrift and honesty, and both are well
 represented in America.

The attempt on the life of Vice-
 President Fairbanks at Flint, Michi-
 gan last Wednesday, indicates that
 American soil is still cursed with
 anarchy. McConnell, the man who
 sought to perpetrate the deed, was a
 full-fledged anarchist and the scheme
 which failed was carefully planned.

Senator McGillivray says: "By the
 eternal my rights shall be respected
 hereafter," and the Senator usually
 talks by the card.

**WILLIAM KREPS, MANAGER
 OF CENTER CREAMERY, JUST
 ESCAPES BEING SMOTHERED**

Pours Kerosene on Live Coals in Fur-
 nace and Is Badly Burned
 —County Notes

William Kreps, manager of the Center
 creamery, barely escaped being
 smothered and was badly burned
 about the head and hands one day this
 week. He was at his work there and
 thinking the fire in the furnace had
 died, started to rekindle it by pouring
 in some kerosene and wood shavings.
 The live coals immediately ignited
 the oil and the flames sprang out
 from the door, burning Mr. Kreps' face
 and hands and threatening to
 smother him. He is able to be about
 to superintend the work, which is being
 done by an assistant.

Big School Picnic
 Saturday on the picnic grounds in
 the town of Center will take place
 one of the largest school picnics held
 in the county this year. The students
 of the first and second districts of
 Center and the Calville institution
 will participate. Among the attrac-
 tions of games and amusements will
 be the baseball contests in the after-
 noon. All are invited to attend.

Corn Progressing
 Reports from various parts of the
 county show that the corn crop is
 growing rapidly this year and unless
 something unforeseen happens will be
 one of the largest raised of late years.
 From Clinton comes the statement
 that it can be seen growing. It is
 high for this time of the year and
 will probably be above the "knee-
 height" by July 4.

Shipping Much Hay
 Kennedy and Baldrige are pressing
 large quantities of hay in the town
 of Center and surrounding country at
 present and this is being shipped out
 by William Cory of Footville.

THE TEACHER'S UNION.
 Chicago has a school teacher's union
 which is just now making itself
 obnoxious by joining hands, in sym-
 pathy at least with the teamsters' strike.

This intellectual union has an or-
 gan known as the "Chicago Teacher's
 Federation Bulletin" in which griev-
 ances are aired and policies criti-
 cised with the utmost freedom, and
 without regard to consequences.

In a late issue the whole blame
 of the strike is imputed to the em-
 ployers, who are stigmatized as
 "plutocrats." The strikers are all
 right and the employers are wrong.
 It suggests that "tainted dollars"
 and a "criminal plutocracy" and not
 the free use of the streets of Chicago,

Local Salvation Army leaders have

 lengthy cablegram from Mr. Bramwell

 calling upon the Salvation Army through-
 out the world to observe the week
 from the 10th to the 17th of June as

RELATIVES OF
DEAD STRANGER

Have Been Located in Chicago, But
No Word Received Regarding
Disposition of Remains.

City Marshal Comstock received from Francis O'Neill, superintendent of the Chicago police force, this morning an inquiry regarding Fred Meyers, the stranger who died on the streets here Wednesday. The Chicago official describes a man 48 years of age, weighing 150 to 160 pounds, sandy mustache, brown hair, grey trousers, black coat, soft black hat, and heavy working shoes, bearing the same name who left that city on June 5, and concludes with the statement: "His relatives fear that he is the party who died in your city." Chief Comstock immediately wired to Chicago that the outline given described the dead man and asked the police there to communicate with relatives and find out what disposition they wished made of the remains which were to have been buried here today. Early this afternoon no word had come from them. One of the Chicago evening papers contained a lurid article last evening to the effect that in Mrs. Dalbke, 476 Lincoln street, and Miss Elsie Van Dreile, 468 Lincoln street, had been found two relatives of the Chicago man who was found dead near Janesville, Wis., "under circumstances indicating that he was murdered." His body, with a long gash in the head, was found near the entrance. These statements regarding the murderer of the man's demise, it is unnecessary to say, are pure fiction. The first of the women mentioned is a stepdaughter of Meyers and the second a niece. Mrs. Dalbke was mentioned in Chief O'Neill's letter.

KICKERS' KOLUM

To the Editor: In the Kickers' kolum of the Gazette on May 24th there appeared an article signed a "subscriber," in which it was stated that in the southern portion of the town of La Prairie there lived a man who shamefully abused his horses. It was said that he had in fact blinded three horses within a few months by beating them over the head. It was also said that he compelled his half-starved animals to draw heavier loads than they were able and hinted that the community would take a hand in the matter if he did not stop. The article has caused considerable excitement in the town of La Prairie and a careful investigation of every decent horse in the township has resulted. Several persons have been suspected by neighbors of being the parties referred to and a general unpleasantness has resulted. In justice to the town of La Prairie it should be stated that if the writer of the article knows the name of the man who abused his horses he should make it public. If he does not and merely took this method of airing a spite he should be branded and his name made public. As far as can be learned no such cases exist as are depicted. It can not be learned that a single horse in the township has been blinded by its owner, let alone two or three, and such a story is an injustice to the township and should be refuted at once. "LA PRAIRIE."

SIX MONTHS IN
STATE'S PRISON

Was the Sentence Meted Out to
Cassie P. Felts of Beloit by
Judge Sale This Morning.

Cassie P. Felts of Beloit, who has been in the county jail several days awaiting trial on the charge of stealing valves, boxes, and end brass trimmings belonging to the engine of a crushing plant in that city, decided to plead guilty this morning and appeared before Judge Sale in municipal court. Atty. E. D. McGowan made the plea for the prisoner, arguing that the crime was committed while the man was intoxicated and that he had always hitherto borne a good reputation. The court said that it was the purpose of the state in such cases not to punish but to reform and gave the man the minimum sentence—six months in the state's prison at Waupun. This is the fourteenth penitentiary or reformatory sentence meted out by municipal court since January 1 and District Attorney Newhouse says that it is about the twelfth case where intemperance has been argued in extenuation for the crime committed.

"While many have been warned, there have been no arrests thus far for violations of the anti-spitting ordinance," said City Marshal Comstock this morning. The police, so far as I know, have caught no one in the act of expectorating on the walks. I do not believe that many will do this thing wilfully, once it is understood that there is a regulation against it. It is such a law prevails, will shortly be posted on convenient telegraph poles. Many have commented on the fact that the walks have been much cleaner since the ordinance went into effect.

BEGAN WORK ON THE
NONESUCH PARADE

Committee in Charge of Big Fourth
of July Burlesque Held First
Meeting Last Evening.

Preliminary plans for the Nonesuch Bros.' circus parade were discussed at a meeting of the committee in charge of this feature of the Fourth of July celebration held in J. H. Murray's store last evening. The matter of securing scarlet jackets and caps for fifty or more drivers who will pilot the dens of wild beasts, was discussed at considerable length and arrangements will be made at once for this part of the equipment. Costumes for a number of the special features of the parade were also taken up at length and Chairman George McKee, who expected to visit Chicago today promised to visit the several costume houses and ascertain what terms could be made for rental or purchase. Appropriations were made for horse-plumes, flags, and banners, and it was decided to start building the big chariots for the brass bands at once. D. W. Watt suggested that a rattling good drum corps of twenty or more should be secured if such a thing were possible. J. H. Murray said that from thirty to forty cowboys and Indians would be secured for the Wild West feature if such a thing were possible and asked for cooperation in enlisting the assistance of the young men in the country and neighboring towns and villages. It was the general opinion that the country districts would gladly furnish men and horses for the pageant if anyone would take the trouble to see the people personally and invite them. The Y. M. C. A. gymnasts will again be called upon to furnish several features of the parade and it is possible that Physical Director Ward may be asked to organize a company of Aurora Zouaves. The parade committee was in favor of having a circus performance after the procession, possibly in the evening, and Dr. Leslie and J. H. Murray were appointed as a committee to visit Athletic Park and make an estimate on the probable cost of putting it in shape for such an affair and to present the figures to the general executive committee. Whether the general committee will be in favor of this undertaking remains to be seen. It would be a big feature but of course would involve a considerable additional outlay of money, which would possibly have to be met by the charging of a small admission fee at the gates. The committee asks all who will provide a feature for the parade to commence work at once. The Nonesuch Bros' pageant must be much larger and better than ever before if it is to succeed. Everyone who will lend a hand is urged to do so.

Kvale on loyalty to the church. After the program refreshments were served and a social time enjoyed.

MAY MAKE CHANGES
AT BLIND INSTITUTE

Dispatch from Madison Says That
Superintendent Showalter
Was Not Reappointed.

The following dispatch under a Madison dateline appeared in this morning's Milwaukee Sentinel: "Because his boys found fault with the quality and quantity of food he served Prof. C. R. Showalter, superintendent of the state school for the blind at Janesville, may not be re-elected. The state board of control today re-elected the superintendents, matrons, and assistant stewards in all of the state institutions except that at Janesville. Mrs. Showalter, the superintendent's wife, is matron at the Janesville school at a salary of \$500. She was not re-elected. The superintendent's salary there is \$2,000. A great many members of the legislature are wondering if the purpose of the board in postponing the election of a superintendent is to chastise Prof. Showalter for allowing disagreements between himself and charges to get into print."

ROY CARTER MADE HIS
DEBUT AS A VOCALIST

At a Recital Given by Prof. Barnes
and Other Rockford

Roy Carter of this city whose ability as a pianist is well known has surprised his friends by the progress he has recently made in vocal work. At Rockford last evening, at a recital given by Prof. Barnes and other prominent musicians and attended by the society people of the Forest City, he made a profound impression by the rendition of several difficult selections in a rich baritone and was recalled after every number. HE IS GOING TO ASK THE
CITY TO FOOT THE BILL

Alva Russell Claims That There Were
No Danger Lights to Prevent
Ditching of His Hack.
Alva Russell has served notice on the city that he will hold it liable for damages sustained by the horses and vehicle that were pitched into the sewer ditch on Center street on the night of June 1. He claims that the team was badly bruised and the hack partially demolished and that no danger-signals lights or any other warning signs were displayed.

Self-Denial Without Restraint.

One of the newest "cures" is to eat as much as you can for three weeks of the month, and diet yourself rigorously during the fourth. In this way it is found possible to combine the advantage of self-denial with the pleasures of the table.

TOO LATE TO BACK
OUT OF CELEBRATION

Fund Must Be Raised, and All Busi-
ness Men Should Take a Hand
and Show Interest.

As was stated last evening the finance committee need more money to assure the success of the Fourth of July celebration. This means that all who have not contributed as yet to the fund for the celebration should come up liberally. Forty years ago Janesville held a celebration and no notices in the columns of the Gazette at that date show that the finance committee was making the same pleas then as they are now. Matters have gone too far to back out on a celebration now. The two mass-meetings held in the city hall decided that Janesville wanted to celebrate the nation's birthday and do it in a proper and fitting style. This being known then let everyone turn in and do the best. Reports that come from the chairman of the different committees report progress in the preliminary work of the celebration and inquiries from outside point to banner-breaking crowds in attendance. In fact, the great Barnum & Bailey's circus, which had planned to exhibit at Madison, is said to be wavering in its decision owing to the fact the Nonesuch Brothers are coming to Janesville and they are afraid of competition.

Billville Item.

"We know a fellow," says the Billville Banner, "who got married the other day and killed himself when presented with a bill for house rent. It does look like the women won't rise up and make a living for the men these days."—Atlanta Constitution.

Summer Comfort..

How to get real comfort and enjoyment from your porch in summer.

Crude bamboo screens let in most of the heat. The unsightly canvas drop shuts out all of the breeze.

VUDOR SHADES. They are the only shades ever made which really shade a porch from the sun, yet admit a free circulation of air.

Porches were made primarily for people to enjoy out-of-door life in warm weather. You cannot do this without Vudor Shades. Whether it be a summer home in the country or one by the lake or sea, a city mansion, a modest home or cottage, **Vudor Shades** will make your porch the most useful, enjoyable part of your house in summer. Owing to their special construction Vudor Shades admit of a free circulation of air. They effectively shut out the sun. They screen your porch from the gaze of passers-by, yet permit you to see all that is going on outside. Vudor Shades add another room to your home--a cool, secluded place for serving a dainty luncheon or receiving callers--a restful, quiet nook where a busy man may smoke his noonday cigar, or take a nap--a shady spot to swing a hammock. They make a porch an ideal place for invalids and convalescents to enjoy the outside air. They make the porch a perfect play room for children during the heat of the day.

Makes your home a summer home. Get the real comfort and enjoyment from your porch that you should--fit it with Vudor Shades.

Janesville people can well take personal pride in Vudor Shades as they are a Janesville production, and are the means of our fair city being advertised from the Atlantic to the Pacific. See our window display of Vudor Shades. They are made in the following sizes and colors:

PASTEURIZED MILK PASTEURIZED MILK PASTEURIZED MILK

In Most Dairies the Cows are Milked at Noon

and not again till the following morning. During warm weather this is an alarming state of affairs as in the heat of the day the cattle are feverish, and the absorbing tendency of milk quickly transports the germ matter which is found in plentiful quantities in many inspected samples.

Our milk is cooled to 55° before leaving the farm, and on reaching our plant is **Pasteurized.**
